

Game Title: Cozen

Authors:

Muñoz, Maria Angelica

Rafanan, Rafael Jack

Game Description:

[ERROR. The administrator had withdrawn all authority prior to the system shut down. Security measures in place. Initiating back-up access, please wait...]

[Please use the back-up plan and cooperate with each other to escape the room. Thank you for your cooperation.]

Woken up by the scent of rust with no memories, two players try to escape the place reeking of death. Unbeknownst to them, the secret hidden in those rooms had been getting ready to eat away at them.

Will they still be able to get away?

Cozen is an escape room game filled with mysteries. The two players first wake up in an unfamiliar place with only each other to rely on. What will be their fates?

Game Mechanics:

Players will have to rely on each other and work together in order to escape rooms together. They can interact with items in order to gain clues or activate mechanisms to reveal clues for the door's passwords.

However, the escape is not as easy as it seems as the players will have to run for their goals by the end of the game.

Detailed Instructions:

Interact with the objects around the room. Some objects can only be interacted with once you've interacted with the other objects.

Escape the rooms and have a game of chase at the end. (Up, down, left, right keys for movement. Space to interact with the objects.)
